

# MAXv

MAXv is a powerful unified endpoint management solution designed to streamline the management of Vessel PCs from a central location. Developed with a primary focus on supporting and managing Windows OS-based devices, MAXv serves as a robust cybersecurity tool, it offers a range of features aimed at enhancing the efficiency and security of vessel PC management.

## PURPOSE AND FEATURES

- Remote Management
- Windows OS Focus
- Cybersecurity Tool
- IT Asset Management
- Endpoint Management

## IMMEDIATE BENEFITS

- MAXv delivers immediate benefits To your Vessel management process:
- Cost Savings
- Centralized Control
- Network Utilization Monitoring
- IT Asset Management
- Rapid Response

# MAXv Modules

## INVENTORY MANAGEMENT

- Centralized Vessel IT Inventory Management
- Real-time Device Monitoring
- Proactive Hard Disk Health Monitoring
- Effortless PC Warranty Management
- Securely Retrieve Windows OS And Office Keys
- Remote Software Uninstallation

## ADMINISTRATION

- User Management with Flexibility
- Role-Based Access Control
- Empowering IT Administrator as Super User
- Effortless Vessel Setup and Licensing
- Vessel Deactivation at Your Fingertips
- Fine-Tuned Data Replication Scheduling

## PATCH MANAGEMENT

- Prioritizing Cybersecurity through Software Updates
- Remote Approval and Deployment of Updates
- Remote Patch Removal
- Automated Patch Deployment Options

## FILE TRANSFER

- Effortless Remote File Transfers To Vessel PCs
- Resilient Data Transfer
- Optimized Data Compression
- Microsoft Azure-Powered Solution

## CONFIGURATION CENTRE

- Service Management
- USB Device Control
- User Account Management
- Firewall Management
- Display Settings Customization
- Power Management
- Folder Sharing

## CHAT WITH SUPPORT

- Remote Support and Communication Console
- 24/7 Chat Availability with Support
- Efficient Collaboration via Chat Groups
- Export and Archive Chat Messages
- Communication Lifeline for Critical Systems

## REMOTE CONTROL

- Secure Remote PC Access
- Expert Guidance for Vessel Crew
- Optimized Performance And Data Efficiency
- Effortless Remote Configuration

## SUPPORT

- Round-the-Clock Support and Development Team
- Effortless Support Case Submission
- Global Team Presence
- Global Reach with Multiple Contact Numbers

## SOFTWARE DEPLOYMENT

- Automate Software Deployment And Configuration
- Effortless Software Distribution
